ARINC 807-3 states in part:

Re-certification

All certifications will be good for one year from the date of the knowledge and hands-on examinations.

If an individual has been working in the aerospace fiber optic industry as a fiber optic installer, fabricator, quality assurance, or technician since obtaining certification and can provide written documentation from the employer(s), a recertification exam is required.

If an individual has been working in the aerospace fiber optic industry as a fiber optic installer, fabricator, quality assurance, or technician since obtaining certification and have received 8 or more classroom hours of additional aerospace fiber optic training, only the submission of a re-certification application is required. Written documentation from the employer(s) and written documentation for additional training must be included with the re-certification application and submitted to ETA[®].
