ETA[®] INTERNATIONAL

PRESS RELEASE

ETA Honors Outstanding Electronics Technologies Professionals

ETA[®] International showcases students, educators, seasoned technicians and young professionals shaping the future of the electronics technology industry with the annual Technician of the Year, Educator of the Year and Chapter Excellence awards.

Greencastle, November 7, 2017: [ETA International](#) (ETA) is now accepting nominations for outstanding electronics technicians, educators and student chapters who have made a significant contribution in their company or school. These individuals and groups have shown creativity and initiative, executed some of the most innovative ideas, and inspired the next generation of electronics technology professionals.

"ETA is passionate about the electronics technologies and believe all the nominees have made and will continue to make significant marks on the industry," said Teresa Maher, CSS, President, ETA. "We congratulate all of the professionals we've honored in the past, and we look forward to watching these nominees and award winners foster excellence in electronics in the years to come."

Technical employees, co-workers or managers who have a true passion for their industry and consistently strive for excellence are perfect candidates for ETA's Technician of the Year. If they are eager to learn new troubleshooting techniques and share their working knowledge with others, now is the time to recognize them for promoting the integrity of the industry.

Recognize that educator who has motivated and inspired students to pursue meaningful and lucrative careers in the electronics industry by nominating him or her for the ETA Educator of the Year. An instructor who looks for new ways to engage students with hands-on learning or a trainer who consistently makes every effort to help students succeed should be nominated for the ETA Educator of the Year.

ETA Student or Local Chapters increase awareness of the many exciting career opportunities in the electronics industry, actively participate in networking opportunities, and contribute to their school and/or community. Recognize those inspiring students or group of professionals by nominating them for the ETA Chapter Excellence Award.

Nominations may be submitted at <https://www.surveymonkey.com/r/ETAawards18> now through December 1, 2017.

Results will be announced January 2, 2018. Winners will be honored at ETA's Annual Awards Banquet during [Education Forum](#), co-located with the [International Wireless Communications Expo](#), March 7, 2018 in Orlando, FL.

Stay connected with @ETAIntl on Twitter and be sure to follow the association on its [Facebook](#) and [LinkedIn](#) company pages.

About ETA - Since 1978, ETA has delivered over 200,000 certification examinations successfully. Widely recognized and frequently used in worker job selection, hiring processes, pay increases, and advancements, ETA certifications are often required as companies bid on contracts. ETA's certifications are personal and travel with the individual, regardless of employment or status change and measure competencies of persons, not products or vendors. All ETA certifications are accredited through the International Certification Accreditation Council (ICAC) and align with the ISO-17024 standard. www.eta-i.org
